

# Letters of support for researchers

We are very happy to encourage and support research into Tourettes Syndrome in all areas by providing a letter of support for your application of research funding to other funding organisations.

Tourettes Action can review applications for a letter of support if:

- the applicant is affiliated to a legitimate research institution, university or hospital
- it is accompanied by the (early or full) proposal due for grant submission
- full details of the research grant applied for are provided

To apply for help, please contact Seonaid Anderson,  
Tourettes Action Research Manager at [seonaid@tourettes-action.org.uk](mailto:seonaid@tourettes-action.org.uk).
